Hello AK & Moses

Apologies for not seeing this email. I presume there has been a break in communication as I was watching googledocs and believed we had agreed that the updates will be done there.

I have gone through the document and noted the following issues :-

1. The correct IDs of the proposals were not input in the document - corrections have been done.
2. URLs referring to posts on rpd do not align with the action mentioned - See comments
- 3 for the inter-RIR transfer policy - I read

Dear Madhvi,

Thanks for your update and working on the document. I agree with all your track changes. However, we think Listing of amendments to be made by the authors was not necessary. This is because the document does not have the text of the policy proposal listing the amendments would be ambiguous and we think it is not necessary. The URL is provided and the board can check it just like they check the proposal itself.

We have made the corrections as required. Please feel free to amend the document rather than putting in a comment except when inevitable. We think the document is now ready to be submitted to the board subject to formatting.

Thanks

AK
